Doctor of Educational Leadership dedicated to maximizing educators', students', and professionals' ability to thrive and compete in constantly evolving digitally enhanced global marketplace.

- Creates fun and engaging learning environments, developing innovative strategies, curricula, and programs.
- Increases school and community involvement, formulating and executing high-impact PR and outreach activities.
- Fosters robust multidisciplinary and multicultural relationships, building strong rapport and lines of communication.
- Optimizes quality and effectiveness of education, continually improving services, offerings, and opportunities.

Learning Strategies • Lesson Planning • Curriculum Development • Vocational (CTE) & Academic Integration
Quantitative & Qualitative Research • Instructional Technology • Electronic Engineering Technology • E-Learning
School & Community Outreach • Public Relations • Program Development • Student & Educator Instruction

PROFESSIONAL EXPERIENCE

NEW YORK CITY DEPARTMENT OF EDUCATION, New York, New York • 2001 – 2017

Largest school district in US, educating +1M students each year.

Instructor – Career & Technical Education (CTE), School of Cooperative Technical Education (Co-Op Tech)

Develop and teach curricula and lesson plans on Electronics Technology and A+ Computer Repairs such as Electronic Circuits & Systems, Digital Electric Systems, and Control Systems to classes of 20 students; utilize smart boards and various technologies. Design Web 2.0 instructional projects including webpage design. Maintain essential school records and articulation agreement between school and college. Create and facilitate training stations for students to receive on-the-job training. Manage work-based training and internships program. Cultivate relationships with students, parents, and community.

Achievements:

- Pioneered framework for utilizing Career & Technical Education as catalyst to facilitate community involvement in schools; lauded by public for developing learning communities.
- Wrote and generated buy-in on proposal from school superintendent, and successfully secured 5 teachers to volunteer in order to teach program, resulting in additional 10 paid teachers for Saturday program.
- Launched Saturday Academy program which successfully attracted +200 students and community members to attend; enhanced public relations for principal and school including multiple personal radio appearances discussing ways to help students succeed.
- Created A+ Computer Repair CTE curriculum which gained New York State approval, as well as articulating agreement between local technical colleges and school.
- Generated support and involvement of numerous educators, scholars, and political leaders who attended Saturday Academy, gained knowledge about school, and learned how to replicate Saturday Academy in their schools.
